SUMMARY

Full-Stack Developer and Cloud Associate with hands-on experience in web development and cloud computing. Skilled in building scalable applications using Next.js, React.js, Django, and databases like MySQL, MongoDB, and Firebase. Proficient in deploying and managing cloud-native solutions on Google Cloud Platform, implementing CI/CD workflows, and optimizing backend performance. Completed professional work as a Cloud Associate at Niveus Solutions and as a Web Developer Intern at Youace, contributing to production-ready web applications. Currently pursuing MCA with a passion for delivering innovative, high-performance solutions and continuously exploring emerging technologies.

EDUCATION

St Aloysius Deemed to be University AIMIT, Mangaluru Masters in Computer Application (MCA)	Aug 2024 - Present
St Aloysius College (Autonomous), Mangaluru Bachelors in Computer Application (BCA)	Aug 2020 - May 2023 CGPA: 7.34
St Mary's College, Shirva Pre-University Science	2018 - 2020 Percentage: 62%
Shantiniketan English Medium High School Secondary Education	2017 - 2018 Percentage: 73.6%

WORK EXPERIENCE

Locale Homestays - Full Stack Intern <i>Full Stack Development Intern</i>	Oct 2025 - Dec 2025 Remote / OCI
- Developed the frontend user interface using Next.js with a focus on mobile responsiveness and web performance optimization. - Designed and implemented backend RESTful APIs using Node.js and Express, integrated with Supabase for database management. - Managed cloud hosting and infrastructure on Oracle Cloud Infrastructure (OCI), optimizing server resource usage down to megabyte-level granularity. - Integrated external APIs to manage third-party property data and handled iCal synchronization to connect with external OTA platforms. - Built and maintained continuous integration and continuous deployment (CI/CD) pipelines for streamlined automated hosting and updates.	
Niveus Solutions <i>Cloud Associate</i>	June 2023 - Mar 2024 Udupi - Karnataka
- Assisted in designing and deploying solutions on Google Cloud Platform (GCP), gaining exposure to services such as Compute Engine, Cloud Storage, and IAM. - Automated and optimized cloud workflows, improving efficiency and reducing manual intervention. - Collaborated with the team to troubleshoot cloud infrastructure issues and ensure smooth deployments. - Developed a solid understanding of cloud-native architecture, CI/CD pipelines, and best practices for scalable deployments.	
Youace (Startup Project) <i>Web Developer Intern / Co-Developer</i>	Oct 2022 - Mar 2023 Mangaluru - Karnataka
- Designed and developed the Youace website from scratch using Next.js, ensuring a responsive and visually appealing UI. - Implemented key features and optimized frontend performance for a smooth user experience. - Collaborated with a small team as part of a BCA startup initiative, gaining exposure to real-world development workflows and teamwork.	

PROJECTS

Personal Portfolio Website

- Built a responsive personal portfolio using **Next.js** and **TailwindCSS** to showcase projects and work experience.
- Deployed and optimized for performance and SEO best practices.

Personal Homelab Infrastructure 2024

- Designed and deployed a homelab environment with multiple virtual machines, Docker containers, and Kubernetes orchestration.
- Implemented network management, firewall rules, and automated backups for development and testing purposes.
- Used the setup for continuous integration, hosting development environments, and experimentation with cloud-native technologies.

SmartPark - Parking Management Application 2023

- Developed a smart parking management system using **Django**, **Firebase**, and **MongoDB**.
- Implemented real-time parking space monitoring with a **Computer Vision model (CVzone)** for automated detection.
- Integrated Firebase authentication, user management, and analytics for space utilization.
- Secured funding after winning first place in *Impetus Innovative Project*, scoring 481/500 for project completion.

Jewels Store - E-Commerce Website 2022

- Built a full-fledged jewelry e-commerce website using **PHP**, **MySQL**, **HTML**, **CSS**, and **JavaScript**.
- Implemented product search, filtering, cart, and secure payments with **Razorpay**.
- Developed an admin panel for product, order, and user management.

Youace Website - Personal Development Platform 2022

- Designed and developed a responsive, user-centric landing page emphasizing accessibility and seamless user experience.
- Implemented contemporary front-end design principles ensuring cross-device compatibility and visual appeal.
- Delivered an intuitive interface and contributed to a collaborative startup initiative during BCA.

LEADERSHIP & EXTRACURRICULAR

- Vice President of the Students Council (2022 - 2023).
- Launched *Open Mic Season 1* to showcase student talents.
- Student Coordinator for *Andaz Apna Apna* teacher talent competition.
- Organized *Aloysian Got Talent - Season 3*.
- Conducted Git & GitHub Workshop;
- Organized AI Certificate Course for BCom students.
- Secretary of Computer Animations Association.
- Admin Block Secretary (2021 - 2022).
- Attended TEDxSAC: Manifest Your Matrix, IoT Workshop, and Knowledge Factory Workshop.
- 2nd year Class Representative in BCA.

ACHIEVEMENTS

- Secured funding for IoT project after winning 1st place in *Impetus Innovative Project*.
- Awarded Constructive Activity Prize for promoting unity and rapport.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript

Web Development: Next.js, Node.js, React.js, Django

Databases: MongoDB, MySQL, Firebase, PostgreSQL

Mobile Development: Android (Java/Kotlin)

DevOps & Cloud: Docker, Kubernetes, CI/CD, AWS, GitHub Actions

Tools: Visual Studio Code, Git, Virtual Machines, Linux Shell

Operating Systems: Windows, Linux
